

Theoretical Research on the Structure of China's Labor Migration

Shiying YANG

Abstracts

The main objective of this paper is to research the structure of China's labor migration by the two-sector economic development theory. At the same time, agriculture-manufacture labor migration problems and the characteristics of China's labor migration are to be analyzed. Estimation of China's labor migration from 1949 to 1998 will be discussed in the end. All deficiencies of this research are my sole responsibility.
